Malang, Jawa Timur

A Mathematics graduate with experience in developing optimization-based applications and conducting academic research. Skilled in data processing, generating insights, and supporting decision-making through structured analysis. Experienced in presenting research at an international conference. Detail-oriented, analytical, and eager to contribute to business operations in a professional environment.

Education

Universitas Negeri Malang - Malang <i>Undergraduate in Applied Mathematics, 3.44/4.00</i>	Aug 2021 - Aug 2025
SMA Negeri 1 Kepanjen - Kab. Malang <i>Senior High School, Natural Science, 88.00/100.00</i> Completed studies under an Acceleration Program	Jun 2019 - Jul 2021

Work Experiences

Private Mathematics Tutor - Malang <i>Freelancer</i> - Provided personalized tutoring sessions to help students understand mathematical concepts and classroom materials - Assisted students in keeping up with school lessons and preparing for examinations - Guided students through practice exercises to strengthen problem-solving skills - Identified learning difficulties and adapted teaching approaches based on students' needs	Oct 2024 - Dec 2025
---	---------------------

Organisational Experience

Data Engineering Participant - Malang - Developed ETL pipelines using Python in VS Code for data extraction, transformation, and loading processes - Built and managed databases using SQL to support data processing workflows - Utilized Docker for containerization and environment management during project development - Designed workflow pipelines and database schemas using Entity Relationship Models (ERM/ERD) - Created interactive dashboards and visualizations using Looker Studio for data-driven insights - Collaborated with team members to complete project-based data engineering tasks	Feb 2024 - Jun 2024
--	---------------------

Projects & Achievements

- Projects** 📌 (2025): International Conference Presenter (ICoMathApp)
- Achievements** 📌 (2025): Registered Copyright for the SLVRPSDP Application Program (No. EC002025124061)
- Webinars Attended** 📌 (2025): International General Lecture Mathematical (Modeling Applications)
- Achievements** 📌 (2024): 2nd Place Winner in Innovation Management Project, Universitas Negeri Malang
